

CODE & STANDARDS OF **PROFESSIONAL CONDUCT**

CODE & STANDARDS OF PROFESSIONAL CONDUCT

APSCA aims to increase the value and effectiveness of independent social compliance audits by enhancing the professionalism, consistency and credibility of individuals and organizations performing them.

Labor rights and workplace conditions are a central focus for many organizations, due to expanding global supply chains, public perceptions related to social responsibility, and legislation. Independent *social compliance services* are an important tool in advancing labor rights and workplace conditions for *workers* globally. APSCA aims to raise the value, quality and effectiveness of *social compliance services* and support *Member Auditors* and *Member Firms* who are performing them.

APSCA expects *Members* to demonstrate a high standard of ethics and *Member Firms* to promote a culture of honesty and integrity in day to day operations and support the fair treatment and appropriate workplace conditions for their *Member Auditors*.

The principles outlined in the Code of Professional Conduct (the *Code*) - presented herein as the first element of each section in bold - have been developed to support APSCA's values and are intended to provide guidance around the transparent and accountable manner in which individual *Member Auditors* and *Member Firms* are expected to operate. The *Code* serves as a foundation for establishing credible, ethical and consistent professional behaviors by *Members*.

The related Standards of Professional Conduct (the *Standards*) presented herein as the subsections under each element in bold provide *Members* with clarification and more detailed requirements related to the obligations under the *Code*.

By becoming a *Member* of APSCA, both auditors and *audit firms* are committing to uphold the principles outlined in the *Code* and the related *Standards* in the conduct of all *social compliance services*. It is also intended that *Member Firms* will ensure that the provisions of this Code will be followed by all personnel working on their *social compliance services*.

In the event the *Code* or the *Standards* conflict with applicable law, such that compliance with both is not possible, *Members* shall comply with applicable law.

The *Code* and the *Standards* are not intended to be, nor should they be interpreted as, a full or exhaustive list of the situations, circumstances or conditions which may comprise compliance and non-compliance. Professional judgment will be required to decide what is adequate, sufficient, and competent according to the situations and circumstances of each audit.

Member Firms are independent businesses; however, the actions of *Members* can be attributed to APSCA, affecting the reputation and level of trust APSCA has earned as well as impacting the reputation of the industry as a whole. *Members* are expected to conduct themselves with consideration of this reality.

Note: In the *Code* and *Standards*, "*Members*" refers to individual *Member Auditors* and *Member Firms*. *Member Firms* are those organizations that have been accepted for membership into APSCA. *Member Auditors* includes both Certified Social Compliance Auditors (*CSCA*) that have been certified by APSCA, and Associate Social Compliance Auditors (*ASCA*) that have been approved by their *Member Firm* and have been enrolled with APSCA. **During the initial period, *Registered Level Auditors* have the rights, responsibilities and obligations of a *CSCA*.**
